Understanding Geothermal Heat Pumps

The US Department of Energy has recently produced a video on "Geothermal Heat Pumps" and have posted it on their website. To learn more about how Geothermal Heat Pumps work and what makes them so energy efficient click here to view the video http://www1.eere.energy.gov/multimedia/video_geothermal_heat_pumps.html

Federal Tax Incentives for Energy Efficiency Modifications

The Federal Government will be extending and/or modifying tax incentives into the 2011 year for homeowners and home builders if they exist certain energy efficient means. Below is an update from the Tax Incentive Assistance Project (TIAP) on what is planned or you can check it out through the following link:
