

Bicycles and Pedestrians: A New Approach

The Virginia Department of Transportation, in cooperation with the Rappahannock Rapidan Regional Commission, will hold an informal meeting in Culpeper to provide information about its bicycle and pedestrian program and how it is integrated into the regional transportation network. The meetings will allow people interested in bicycling and walking to discuss the program with VDOT representatives.

VDOT's statewide bicycle and pedestrian program was developed to ensure that bicycling, walking and other modes of non-motorized transportation receive the same consideration as motorized transportation in the planning, design, construction and operation of Virginia's transportation system.

The meeting to discuss the program will be held in Culpeper on Wednesday, May 2, 2007 at 4 PM:

**Virginia Department of Transportation
Culpeper District Auditorium
1601 Orange Road
Culpeper, VA 22701**

For directions, please call (540) 829-7537.

The meetings will begin with VDOT representatives making a presentation about the bicycle and pedestrian policy. Discussion about how it can be integrated into the local and regional transportation network will follow.

To learn more about this meeting, please contact:
John Giometti, VDOT Culpeper District Planning Manager
Phone: (540) 829-7546 TDD/TTY: 711
